Presentation of Original Specification and Claims

1. The specification is objected to as it has not been presented in the manner required by 37 CFR 1.173, specifically, the specification has been presented in standard application form, rather than as a copy of the patent, in double column format, each page on a single sheet of paper (see 37 CFR 1.173(a)(1)).

§ 1.173 Reissue specification, drawings, and amendments.

(a) Contents of a reissue application. An application for reissue must contain the entire specification, including the claims, and the drawings of the patent. No new matter shall be introduced into the application. No reissue patent shall be granted enlarging the scope of the claims of the original patent unless applied for within two years from the grant of the original patent, pursuant to 35 U.S.C. 251.

(1) Specification, including claims. The entire specification, including the claims, of the patent for which reissue is requested must be furnished in the form of a copy of the printed patent, in double column format, each page on only one side of a single sheet of paper. If an amendment of the reissue application is to be included, it must be made pursuant to paragraph (b) of this section. The formal requirements for papers making up the reissue application other than those set forth in this section are set out in § 1.52. Additionally, a copy of any disclaimer (§ 1.321), certificate of correction (§§ 1.322 through 1.324), or reexamination certificate (§ 1.570) issued in the patent must be included. (See also § 1.178).

Basis for Making Amendments

2. Applicant is again reminded that 37 CFR 1.121 **does not** govern the process for the making of amendments in Reissue applications. As applicant's most recent amendment has included both unmarked and completely underlined claims, the completely underlined claims have been entered in the application.

Allowable Subject Matter

3. Claims 1-12 are allowed.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

The specification has not been presented in this Reissue application in the manner required by 37 CFR 1.173(a)(1) as set forth above.
